Fight on Reclamation.

Advocates of reclamation, staged a fight against the adoption of the conference report because of the elimination by the conferees of the McNary amendment providing an appropriation of \$350,000,000 for the development of the arid lands of the West and the swamp lands of the South.

Senator Sinmons, whose constitutions

Senator Sinamons, whose amendment to pay the bonus by using the foreign war loan was also rejected by the conferes made an impassioned appeal to the reclamation force in the Senate to join with him in an effort to have the conference report rejected. He took the position that the conferences had exceeded their authority in striking out the reclamation provision and that the reference of the measure to conference would not delay its passage more than a day or two.

Senator Lenroot (Wis.) took issue with Senator Simmons and declared that "the bonus bill would be put to sleep forever if it is referred back to conference."

Senator Harrison (Miss.) proposed

forever if it is referred back to conference."

Senator Harrison (Miss.) proposed that the conference report be referred back to conference, new conferese be named and instructed to re-insert the MeNary reclamation project.

Senator Cummina, president pro tem, ruled that the motion of Senator Harrison was out of order. He took the same position as Speaker Gillett to the effect that the conferees did not exceed their authority in striking the MoNary amendment from the bill. He gave it as alsopinion that the land settlement proposal in the House bill and the reclamation project contained in the Senate bill, were two distinct proposals and that they were irreconcilable.

An appeal from the decision of the chair was taken by Senator Harrison, which led to considerable debate upon the parlimeantary procedure. The ruling of the chair was sustained by a vote of 33 to 21.
